STRATEGY

Emerging Markets Equity

The Lazard Emerging Markets Equity strategy seeks to generate strong relative returns over a long-term time horizon by investing in companies with strong financial productivity at attractive valuations. The strategy typically invests in 70 to 90 securities of companies domiciled in countries included in the MSCI Emerging Markets Index with **externalMetadata:productLanguages** of sufficient liquidity, though we generally focus on those **<languageCode>:1:body** companies not domiciled in the emerging markets but that derive more than 50% of their net assets and/or sales from emerging-market countries are also included in our initial universe.
